Invitation From Chairman of ASEAN Neurosurgical Society Congress

Dear friends and my fellow colleagues,

As the President of Indonesian Neurosurgical Society (INS), there are no words that represent my feelings right now except gratitude. I would like to thank all parties involved in **The 29th Annual Scientific Meeting of The Indonesian Neurosurgical Society (INS), held in conjunction with The 21st ASEAN Congress of Neurological Surgery on October 15th – 19th at Four Points by Sheraton, Makassar** with the theme of “**Harmonization in Neurosurgery**”.

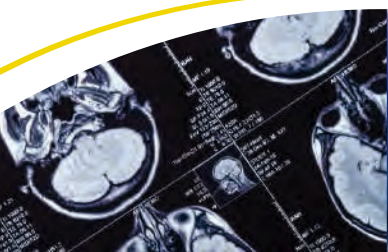

We believe that this book will create a more cohesive network that can address the evolving challenges of neurosurgical care while reflecting our shared commitment to fostering collaboration, unity, and exchange of knowledge across specialties. As medical professionals dedicated to advancing neurosurgery, we recognize the tremendous value of aligning our skills, research, and practice through the congress events we regularly host.

Hopefully, the many things that were conveyed at the last congress will be useful for all of us and the goal going forward is to produce even more beneficial outcomes for the welfare of the field of neurosurgery.

Joni Wahyuhadi

Chairman of The 21st ASEAN Congress of Neurological Surgery

Invitation From Chairman of INS Congress

Dear Friends and Colleagues,

On behalf of the Organizing Committee, we have the pleasure to inform you that **The 29th Annual Scientific Meeting of The Indonesian Neurosurgical Society (INS)**, held in conjunction with **The 21st ASEAN Congress of Neurological Surgery** will be held on **October 15th – 19th at Four Points by Sheraton, Makassar**. We are truly honored to host this esteemed gathering here in vibrant city of Makassar. The chosen theme will be **"Harmonization in Neurosurgery"**

It reflects our shared commitment to fostering collaboration, unity, and the exchange of knowledge across borders and specialties. As medical professionals dedicated to advancing neurosurgery, we recognize the immense value of harmonizing our skills, research, and practices. Together, we are creating a stronger, more cohesive network that can address the evolving challenges in neurosurgery care.

As usual, **The 29th PIT PERSPEBSI** scientific activities will be filled with symposiums and workshops with various current topics presented by resource persons from within and outside the country.

We are sure that all PERSPEBSI members can't wait to see each other soon then We hope that all PERSPEBSI members can participate in this event as a place to develop knowledge and skills so that neurosurgery services in Indonesia can continue to be improved.

Makassar, the capital of South Sulawesi, is well-known for its rich cultural heritage, diverse culinary delights, and stunning coastal scenery. It is a gateway to the famous Toraja highlands and the the stunning beaches of Bira. Whether exploring the historic Fort Rotterdam, enjoying a sunset at Losari Beach, or savoring the local delicacy Coto Makassar, this city promises a memorable experience for all our guests.

See you in Makassar,

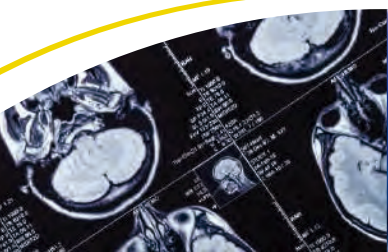

Andi Asadul Islam

Chairman of INS Congress

GENERAL & CONGRESS INFORMATION

Event Name:

PERSPEBSI Congress 2025 In Conjunction With 29th Annual Scientific Meeting Of the Indonesian Neurosurgical Society (INS) And The 21st ASEAN Congress of Neurological Surgery

Theme :

"Harmonization in Neurosurgery"

Congress Venue :

Four Point by Sheraton, Makassar, South Sulawesi, Indonesia

Host :

Indonesian Neurosurgical Society (INS)

Important Dates

Deadline for Abstract Submission	Friday, August 1 th , 2025
Pre-congress Workshop	Wednesday - Thursday, October 15 th - 16 th , 2025
Opening Ceremony	Friday, October 17 th , 2025
Business Meeting of INS & ASEAN CNS	Friday, October 17 th , 2025
Business Meeting Collegium of INS	Friday, October 16 th , 2025
Conference	Friday - Saturday October 17 th - 18 th , 2025
Free Paper Presentation	Friday - Saturday October 17 th - 18 th , 2025
Exhibition	Friday - Saturday October 17 th - 18 th , 2025
Cultural Dinner and Closing Ceremony	Saturday, October 18 th , 2025
Tour and Sport	Sunday, October 19 th , 2025

TOPIC HIGHLIGHT

NEUROSPINE

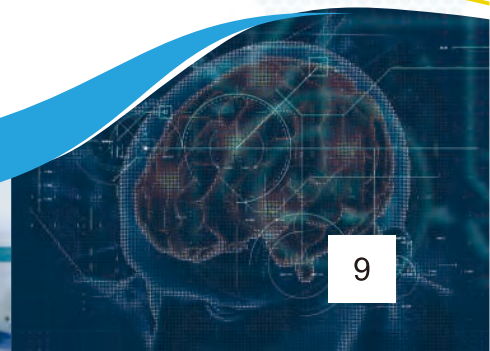

- Endoscopic Anatomy of the Lumbar Spine: Implications for Advancements in Biportal Endoscopy Spine Surgery
- Tactile and C arm Free Learning Method, for Interlaminar UBE.
- Clinical Outcomes of Transforaminal Lumbar Interbody Fusion (TLIF): A Four-Year Retrospective Study
- Full endoscopic interlaminar approach spine decompression as minimally invasive strategy to treat stable lumbar degenerative spondylolisthesis.
- Versatility of BESS in Dealing with Cervical and Lumbar Spinal Stenosis Cases by Minimally Invasive Fashion
- Destandau and arthrospine operative technique
- 3D-printed spine model guided for AIS surgery
- Nerve transfers for cervical cord injury
- Uncovertebral Joint Decompression in ACDF Procedures
- C1-2 Intradural Extramedullary Tumor Management as a Young Neurospine Surgeon, case series
- First-Year Experience in Spinal Surgery: Young Neurosurgeon view
- Surgery for Thoracolumbar Fracture in East Sulawesi
- The role of peripheral nerve surgery in spine cases : the intersection that goes hand-in-hand for patients' treatment.
- Intradural Extramedullary Plexiform Schwannoma at T1-T4: A Case Highlighting the Importance of Timely Surgical Approach
- Full Endoscopic lumbar spine surgery: Results and experience of approaching the first 1000 cases
- Cervical Spondylosis Myelopathy : The controversies between Anterior vs Posterior Approaches
- Adjacent segmen Disease after cervical ACDF
- Spinal realignment surgery on adult deformities
- Diagnosis and management of Spinal infection; 2. Diagnosis and management of spinal metastasis.
- Intramedullary Tumor
- decision making in spinal surgery
- Surgery for Pott's disease
- Adult Degenerative Scoliosis: Selective fusion or non selective fusion
- Evaluation and Mx of Spinal Cord Tumours

TOPIC HIGHLIGHT

NEURO TRAUMA

- Bio mechanical and Bio Cellular of The Brain Damage in Traumatic Brain Injury Pathophysiologic and Management
- Decompressive Craniectomy for Traumatic Brain Injury: What's new?
- Endoscopy Management of Cerebrospinal fluid rhinorrhoea
- Epidemiology and Challenges of Neurotraumas Care in the Hospital in Papua
- Evaluation of Mechanical Properties and Porosity of Available Cranioplasty Materials in Indonesia
- Evidence based or biomolecular research: which is the choice in clinical applications of neurotrauma?
- Frontozygomatic Fractures: A Neurosurgical Perspective on Complex Craniofacial Trauma"
- Cranial Keyhole Surgery : Should it be a standard in our daily practice?
- Prosfek penggunaan CAFE pada cedera otak
- Technological Advances in the Treatment of Neurotrauma : A Promising Practices
- the role of honey in traumatic brain injury
- various pitfalls in the treatment of severe brain injury
- Cranioplasty Philosophy : Uses to cure patients and their uses in cosmetics
- Update Neurosurgery Services in North Sulawesi
- Updates on ICP Monitoring in traumatic brain injury, where are we now?
- mechanical ventilation pada cervical cord injury
- Post Traumatic Hydrocephalus Management
- Pitfall in Traumatology TBI

TOPIC HIGHLIGHT

NEURO FUNGSIONAL

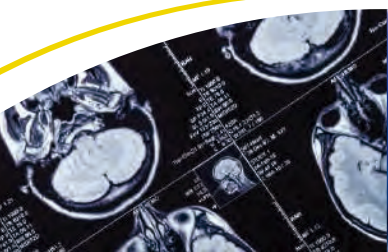

- Levodopa Challenge Test in Daily Practice
- Start for MRgFUS
- Alcohol neurolysis; mechanism and indication
- Basivertebral nerve (BVN) ablation as pain intervention modality for vertebrogenic low back pain
- MVD surgery for Hemifacial Spasm: Checklist for beginners
- Neuromodulation for Epilepsy: DBS and VNS
- Pallidothalamic tractotomy untuk Movement Disorder
- Persepsi neurolog terhadap bedah saraf fungsional
- Reigniting Peripheral Nerve Surgery Services by Neurosurgeons in Indonesia: A Personal Experience
- starting brain lesioning surgery in movement disorders cases
- The effectiveness of transforaminal epidural steroid injection (Fungsional)
- The Effectiveness VIM Thalamotomy for Tremor.
- Unlocking the Future: Advancements in Stereotactic Brain Lesioning and Deep Brain Stimulation in Indonesia
- Vertebrobasilar Dolichoectasia related Trigeminal Neuralgia
- Quality of Life on Temporal Lobe Epilepsy
- Selective Peripheral Denervation for Cervical Dystonia : Initial Experience of Modification Bertrand Procedure
- Surgical technique for benign peripheral nerve sheath tumor
- treatment of Trigeminal neuralgia by full endoscopic vascular decompression
- Role of IONMs of MVD for trigeminal neuralgia and hemifacial spasms
- microvascular decompression surgery for trigeminal neuralgia, my personal experience

TOPIC HIGHLIGHT

NEURO PEDIATRI

- Management of Pediatric Intracranial Hemorrhage due to APCD : Case Series
- The Role of Pediatric Neurosurgeons in Conjoined Twin Separation: Insights from a Tertiary Care Center Experience
- Trends in ETV for Pediatric Hydrocephalus: Success and Failure Across Indonesian Neurosurgery Centers
- Analysis Of Antibiotic Resistance And Sensitivity In Pediatric Patients With Bacterial Shunt Infection Associated With Length Of Hospitalization At Dr Hasan Sadikin Hospital Bandung
- Pediatric Cerebral Malignancies : The Challenge
- How to deal with Pediatric Hydrocephalus and its management problems
- Corpus callosotomy for palliative epilepsy surgery in children: Learning experience
- Role of Non-Invasive Transorbital Ultrasound in Pediatric Hydrocephalus Patients
- Dandy Walker
- Neuroendoskopi Pediatrik di Indonesia: Sejarah, Perkembangan Terkini, dan Prospek Masa Depan
- Shunt Selection in our region
- TBI In Pediatric
- Surgical Correction of Frontoethmoidal Meningoencephalocele with a Modified Tessier approach: A Clinician's Perspective
- Endoscopic Third Ventriculostomy: Technical Variations and Intraventricular Landscape
- Management of Complex Pediatric Craniopharyngioma
- The Most Practical Management of Hydrocephalus in an Archipelagic Country
- Pitfalls in shunting procedures

TOPIC HIGHLIGHT

NEURO ONCOLOGY

- Endoscopy Endonasal for Meningioma ; Technical Note from single Experience
- Controversies and Relevance of Preoperative Tumor Embolization in intracranial Tumor Management
- Craniopharyngioma
- Enhancing the Supracerebellar Infratentorial (SCIT) Approach with Sitting Position for Pineal Region
- Tumor : Optimizing the Surgical Corridor for Better Visualization
- Facial Nerve in VS Surgery: Bridging Technical Excellence and Quality of Life
- Feasibility of Transpalpebral-Transorbital Corridor for Skullbase Approach: First Experience
- Immunohistochemical Evaluation of Ki-67 Index as a Predictor of Recurrence in WHO Grade I Meningioma
- Role of MRI DTI in Preserving Functionality During Glioma Resection
- Supraorbital approach for meningioma.
- The role of miRNA-10b and miRNA-21 in radioresistance and temozolomide resistance of high-grade glioma patients: A systematic review
- Transcallosal approach for intraventricular tumor, refreshing the surgical anatomy and orientation
- Electro Capacity Cancer Therapy (Helm Warsito) in vivo and in vitro study.
- Intraoperative monitoring in infratentorial tumor. Tips and Pitfall
- Intraoperative Ultrasound in Intrinsic Brain Tumor Surgery
- Trans orbital approach for orbit lesions
- Endoscopic surgery for Clival Chordomas
- Customized cranioplasty in Osteoinvasive Brain Tumor
- Enough Lateral - Enough Telovelar Approach for CC Lesions
- Anterior petrosectomy for petroclival lesion
- Large/giant acoustic neuroma: how to preserve the facial nerve"
- Targeting IDH Mutations in Glioma Precision
- Open and Endoscopy for Sellar region Tumor : Case Series
- Reconstruction Of Dural Defects For Minimal Anterior And Posterior Combined Transpetrosal Approach
- My first 50 cases of Meningioma as a Young Neurosurgeon : A demographic study
- Pelayanan onkologi di daerah
- Neuro-Oncology Services at RSUD JAYAPURA : Experience in Managing Brain Tumors in Papua
- limits of expanded endoscopic endonasal surgery
- Craniotomy with endoscopic assisted procedures
- Stereotactic radiosurgery for craniopharyngioma

TOPIC HIGHLIGHT

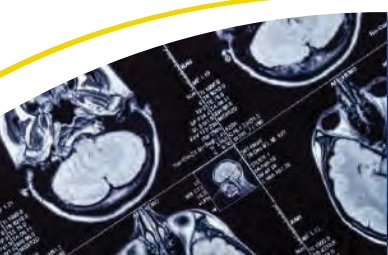

NEURO VASCULAR

- Blunt Cerebrovascular Injury in Neurotrauma
- Endovascular treatment for PICA aneurysm
- Surgery treatment for carotis cavernous Fistula
- Acute Ischemic Stroke: Beyond Guideline. 10 years Mr. Clean's anniversary, where are we now?
- 20 years Experience of Aneurysm Surgery in Semarang : The Need of National Aneurysm Registry
- Implementing AHA/ASA Guideline for Ruptured Aneurysmal SAH : Single Center Experience in H. Adam Malik Hospital
- Challenge and Pitfall in Management Spontaneous Intracerebral Hemorrhage Based on AHA Stroke Guideline
- Aneurysm clipping surgery in the KJSU era at Ngoerah Hospital
- Beyond Coiling and Clipping: The Enduring Role of Cerebral Bypass in Complex Aneurysm Treatment
- Delayed Cerebral Ischemia in Spontaneous SAH, Predict or Expect It
- Decision of Stroke Ischemic Care : From Trombolysis, Trombektomi to Surgery.
- AI in cerebrovascular surgery
- Aneurysm coil embolization
- AVM, How I Do It. Tips and Tricks
- Microsurgical Clipping of Anterior Communicating Aneurysm: Tricks of the Trade
- Bypass surgery for large/giant cerebral aneurysms

WORKSHOP SCHEDULE AND VENUE

WORKSHOP	DATE	CATEGORY
Workshop Stem cell & secretome: The Role of Regenerative Science in Neurosurgery	15 October 2025	Specialist
Workshop Microvascular Anastomosis	15 October 2025	Specialist Fellow and resident (observer)
Workshop on Stereotactic and Functional Neurosurgery: Basic Applications of Stereotactic Neurosurgery in Hospitals.	16 October 2025	Specialist
Workshop Pain Ultrasound level 1	16 October 2025	Specialist
Workshop Pain Ultrasound level 2	16 October 2025	Specialist
Workshop Neurotrauma for GP	16 October 2025	GP
Workshop Hydrocephalus: Shunt, alternatives to VP shunt, and complication Management	16 October 2025	Specialist & Resident Neurosurgery
Workshop Advance Techniques in Cervical Spine Surgery	16 October 2025	Specialist (Hands On , Observer) & Resident Neurosurgery (Observer Only)
Workshop on Endovascular and Microvascular Clipping aneurisma	16 October 2025	Specialist Fellow and resident (observer)
Workshop Pituitary Tumor Challenge and Management	16 October 2025	Specialist

ABSTRACT SUBMISSION GUIDELINE

General Guidelines

- Abstracts must be submitted and presented in English.
- You should only submit work if you, or a designee, are committed to registering for and attending the Congress to give your Oral or E-Poster presentation.
- Registration is not mandatory in the submission process; however, all Presenting Authors must register for the Congress deadline by August 1st, 2025, otherwise, the abstract will not be included in the final Congress program.
- There is no limit to the number of abstracts you may submit, however, the Abstract Selection Committee aims to achieve a wide geographic spread of presenters.
- There are 2 presentation types: Oral and E-Poster. You may indicate your preference, but the Abstract Selection Committee will make the final format determination.
- Abstracts cannot contain advertising, trade names, or product group messages. Please use generic names or terms in your abstract content.

Abstract Form

- Abstract of original research and case report/ series are considered
- Person who submitting the abstract will automatically be the presenting author.
- The Submitter (Presenting Author) is responsible for ensuring that all co-author agreed to be listed on the abstract
- Abstract typed using font “arial” , one space, justify adjustment
- Title (maximum 20 words)
- Keywords (maximum 4)
- Abstract body (maximum 300 words, including the following sections)
- Objectives: At least 2 clear and measurable objectives
- Background: A brief statement on why the study was conducted
- Methods: The methods of study or experimental approach must be briefly defined
- Results: A summary of the study results, including sufficient detail to support the conclusions
- Conclusions: A statement explaining the significance of the study and its implications for further research
- Authors (maximum 11): Include full names with institution and country
- Preferred Presentation Type: You may indicate your preferred presentation type– Oral or E-Poster – but the Abstract Selection Committee will make the final format determination
- Disclose conflict of interest and accept terms and conditions

Abstract Selection

Abstracts will be reviewed by the Scientific Committee to ensure that high-quality scientific submissions are selected for presentation at the Congress. The following criteria will be used to accept the abstracts:

- Significance of the abstract for neurosurgery
- Innovativeness of ideas, methods, and/or approach
- The Rigor of methods and approach (analytical design for research, systematic approach for practice and/or policy)
- Presentation of empirical findings (not applicable if the abstract does not present empirical research)
- Implications identified for future research, practice, and/or policy
- Clarity of writing

Notification of the Abstract Selection Committee's decision will be sent by **August 30th, 2025** via email to the Submitting Author, regardless of the outcome.

ABSTRACT SUBMISSION GUIDELINE

Registration/Attendance Requirement

The Presenting Author (Oral or E-Poster) must register for and attend the Congress. Registration must be completed by August 1st, 2025. If a Presenting Author does not register by the deadline, all accepted abstracts by that Presenting Author will be removed from the program..

Need Assistance?

Congress Venue

We believe in empowering attendees to maximize their impact and effect change both in the boardroom and beyond. That's why we've made well-being a central part of our meetings. From Bright Breaks and energizing agendas, to inspiring, adaptable settings and responsible practices, we ensure attendees and planners feel accomplished, invigorated and ready to perform at their best.

About Makassar, Indonesia

Makassar is the largest city in eastern Indonesia and the capital city of South Sulawesi province. Makassar enjoys a central location in the Indonesian archipelago and is Indonesia's busy air hub, connecting Sumatra, Java, Bali and Kalimantan in the west with Sulawesi, the Moluccas and Papua in the east.

The city of Makassar is a bustling cosmopolitan town, home to a diverse ethnic group that was once called Ujung Pandang.

Attractions in the heart of Makassar range from historical sites, boardwalk waterfront, a plethora of culinary treats and architectural landmarks.
